9 FUEL

Competitors are reminded about the Code of Practice for Motorsport Fuel-Storage and Handling. The full detail of this Code is found here: <http://motorsport.org.nz/resources/safety-training/code-practice-motorsport-fuel>

In brief:

- Competitors are required to store fuel in approved storage containers.
- The maximum quantity of fuel allowed for competitors in their allocated pit bays is 40 litres within a 3m radius in a location less likely to be susceptible to heat and away from sources of ignition
- No fuel is to be left in the pit bays overnight. Fuel containers are to be removed from the pit complex (eg.to the race car transporter) or stored the designated fuel storage compound area (the converted shipping container). If this is not available it is the responsibility of the competitor to remove fuel containers from the venue.

- Approved apparel must be worn when refuelling or defueling. Competitors are required to clean up fuel spillages immediately and notify the organisers as soon as possible
- Recommended hazard zones must be observed when refuelling or de-fuelling. Funnels are **NOT** recommended
- All competitors must have at least one 4.5 kg Multi-Purpose dry powder fire extinguisher with minimum 30B rating in their pit garage at all times. In addition to the extinguisher(s) in the pit garages, all teams shall have at least one Multi-Purpose dry powder extinguisher (minimum size 4.5 kg), that is taken to pit lane each time the race car is testing or in competition.
